# AUTHENTIC MODELS

---

The décor in our interior tells the stories of our lives. Reflecting the memories we cherish, the pursuits we enjoy, our family history and all the things that interest or matter to us. With some pieces chosen for their tangible connection, others purely for their aesthetic appeal.

At Authentic Models, we combine the two through elegantly handcrafted furniture, objects and ornaments which capture the essence of an era or interest via meaningful and surprising design.

Inspired by an adventurous spirit, our collections celebrate style, leisure, and adventure. Treading in the footsteps of history while also exploring beyond the beaten track.

We create original new designs with a daring contemporary twist, character and quality that complements every personal style, to fit in with both modern and traditional settings.

Finally, we would like to wish you a pleasant time exploring this Home Decor Collection Book 2023.

# HERITAGE

---

Our company was founded in 1968 in Amsterdam. Initially focused on making specific home decoration items, we gradually evolved into a high-end furniture and home decoration brand with a distinct European heritage.

For that reason, we are proud to celebrate our **55th anniversary** in 2023!

A long-standing history in which a unique design style and excellent customer service have been the key to our worldwide success.

Throughout the past decades we always have been designing every piece in our collection with an inspiring story behind it, whilst clearly being characterized by style, leisure, and adventure.

Today, we remain true to his ethos by expressing an outspoken spirit through highly attractive furnishings and accessories for today's discerning customers,

We are proud to offer our Collections through a worldwide network of dedicated retail partners. Enriching any space from traditional opulence to modern minimalist all over the world.

As we are now entering our second half-century, we find ourselves embarking on our own fresh new journey of discovery, marked with the introduction of intriguing new designs that sparkle the mind.

# CRAFTSMANSHIP

---

While design and materials create the potential for the beauty of a piece of furniture or accessory, craftsmanship determines the final result. All our handcrafted products are made with attention to detail, which makes each and every piece unique. The craftsmen who work on our collection are professionals and understand their trade meticulously.

That's why we believe that in crafting there are no mistakes,  
just unique creations.

## *A view on our Solar System*

Gazing in the night sky we wonder about the size and scope of the universe. Within that magnitude our solar system seems infinite and overwhelming.

It's easier to understand native creation myths, Newtonian and Galilean theories, and great historical discoveries when viewing the solar system on a smaller, more comprehensible human scale. Reduced to both scientific and decorative models of our planetary system, revolving around the sun and not the earth as early scientists believed.

## *Explore the worlds*

Five different globes from five centuries, symbolizing the advancement of cartography, the gradual pushing back of boundaries. Seemingly a magic object, many earth globes moving in perpetual circles. Different style globes in colors, hues and specifications make a fascinating and elegant object. Sure to arouse interest in planets and their clockwork movements in a curious child's mind.

*Just like a fairy tale*

Whether it's our balloons or our planes; stainless steel wires and nylon lines will keep it in a constant graceful motion. A fun interior décor, it will fit in any kid's room or den. They are easy to assemble and will survive the ages. Ever so graceful, even at this size the miniatures are authentic and correct in their details. Time to hang it up and enjoy the magnificent view.

# PLANE MODELS

The legendary Spitfire fighter was introduced in 1936 as a short-range, high-performance and single-seat aircraft. Beloved by pilots it still has an iconic status. Our model has unbelievable details like retractable main wheels, sliding cockpit window and functioning tail rudder. Shipped with an aluminum stand with plaque.

The DC3 has earned the epithet "Workhorse of the Skies". Thousands were produced from the end of WWII into the 1950s by the Douglas Aircraft works. Military, civilian, government, private, you name it. Utterly reliable. Even now it's possible to find them flying from remote airports, landing on the tightest strips. Legendary and nostalgic. Aluminum, riveted propellers, noisy, but also safe and familiar.

Between 1926 and 1933 only 199 Trimotors were built in Ford's own factory. Corrugated metal on great thick monoplane wings was a German development, used in Junker JU-52 planes that were flying the Berlin-Rome-London route. Trimotors were flown by airlines, oil companies and wealthy individuals. The Ford Trimotor and Junkers JU-52 were pioneering airplanes that led to generations of Douglas and Boeing fleets of aircraft, soon to criss-cross the world.

*Enjoy the flight*

Most definitely it's the size. It's BIG. Built with an interesting array of materials. Lightweight frame stretched with fabric. Down to the smallest detail a replica of the original, which was actually only 5.7m long (less than 19 ft.) to begin with. Built by the thousands during the Great War, in many colors and configurations. The Sopwith was the mainstay fighter-plane of the British and USA air forces in the early 1900s. It ruled the skies for a number of years. Our model fits large spaces as well as large personalities (of which there is no shortage in this world!). Pair it with propellers, old maps, a pilot's desk.

Admire the shape and finish of a wood creation that once propelled daring aviators over uncharted landscapes. Feel the smooth, somewhat distressed, honey surface. The punched serial numbers around the hub. The authentic 1030s maker's decal. Picture it in a bar or a boy's room, a corner of the living room or a restaurant!

You can't see the mechanic from your open cockpit. You yell..."Contact" and the propeller jumps to life, the plane starts to shudder. The mechanic pulls away the wheel blocks and escapes. The noise is incredible, a nine-cylinder Hispano-Suiza...spewing clouds of vaporized castor-oil. Complete cacophony. The propeller is by now an invisible whirr. Out of the way, this is hands-on flight at its finest. Ready for take-off?

# CROSSING THE SEAS

---

Exploration, embarking on new lives, enjoying leisure trips and sporting endeavour... are just some of the many reasons people have taken to the water over the centuries. For every past-time and purpose, numerous different vessels have been designed to ride the waves, sail the waterways and defeat the competition. Authentic Models celebrates adventure, luxurious travel and challenge of waterborne pursuits through accurate, high-quality models of sailing ships, steamers, runabouts and decorative oars. Staying true to history, while also offering original decorative twists.

# OARS

*Give your home an unique look*

For thousands of years vessels were powered either by sails, or by the mechanical work of rowers, or by paddlers. Some vessels were propelled by both oars and sail, depending on the speed and direction of the wind. Many places have long histories of using "trophy" oars on display in club houses around the world. Just like the classic oars, ours are handmade of high-quality wood.

The Aquarama has become a nautical legend. Its evocative name and shape conjures images from another time when these boats roared across the Lago di Como and skimmed the Mediterranean waves of St. Tropez. The Jaguar XK120 ruled the road; Doris Day and Cary Grant were Oscar nominated. It was a time of peace, and optimism was unbridled. It was then that Rivas roared across the Lago di Como and skimmed the Mediterranean waves off St. Tropez.

The throaty growl of that big engine built inside gleaming mahogany, rich leather, chrome trim. Leather padded seats displayed movie stars trying out the new bikini fashions. Husband number 3, 4, or 5 behind the wheel, decked out in spotless captain's finery. No Coast Guard was able to overtake these sleek twin-engine torpedo shaped racers. The curves, the looks, the excitement, the opulence... Stateside, the luxurious Chris Crafts were de rigeur with Hollywood elite.

Once the largest man-made moving object on Earth, with interiors inspired by the London Ritz hotel, its own on board newspaper and musicians with a repertoire of 352 songs, the RMS Titanic represented the pinnacle of endeavour and luxury. This attentively crafted model recreates the vessel in fascinating external detail.

**USS Constellation / AS159**

M. 96,50 x 30,50 x 88 cm, 38 x 12 x 34.60"

USS Constellation was a nominally rated 38-gun wooden-hulled, three-masted frigate of the United States Navy. She was built under the direction of David Stodder at The Joseph and Samuel Sterett shipyard on Harris Creek in Baltimore's Fell's Point maritime community, and she was launched on 7 September 1797. She was one of the original six frigates whose construction the Naval Act of 1794 had authorized. The name "Constellation" was among ten names submitted to President George Washington by Secretary of War Timothy Pickering in March of 1795 for the frigates that were to be constructed.

# WHEELS IN MOTION

---

Motoring started to really find its feet in the 1930s when engineering and competitive spirit came together in the form of racing cars. While careering round a track was only for the very bravest of men, mere mortals could get a safer slice of the action by racing spindizzies – miniature tether cars modelled equal in size on racing cars which moved at nearly 150 miles per hour. Authentic Models salutes those heady early days of motorsport with wonderfully detailed models of the cars and spindizzies which so captured the hearts of their fans.

# WOODEN CARS

# ALUMINIUM CARS

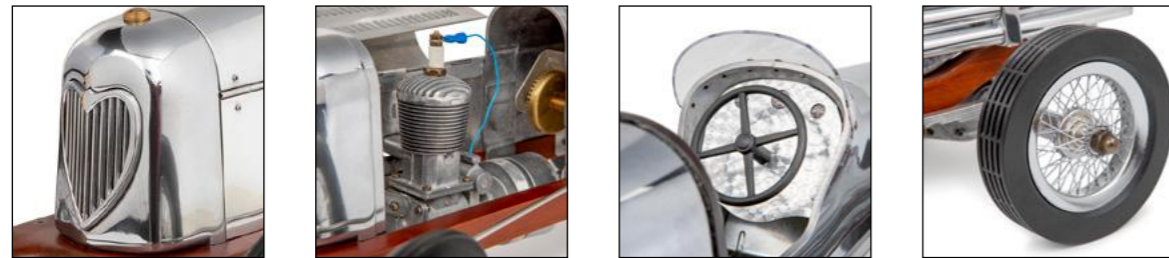

In the 1930s Spindizzies or Tether Cars were miniature racecars built by hobbyists which drove around banked wooden tracks at speeds approaching 150 miles per hour. Incredibly detailed and aerodynamic, these racers were beyond toys; they were pieces of art representative of the best pioneering technology of the era. Constructed using original blueprints, our Bantam Midget model resembles the original down to the smallest detail.

*Surprisingly handcrafted*

Technically skilled enthusiasts of the 1930s loved to race the legendary B.B. Korn cars around the club tracks. Called tether cars or spindizzies, they reached incredible speeds, and inspired thousands to improve and invent. The founder of the B.B. Korn Manufacturing Company, Barney Korn, produced several tether car models that now, as vintage antiques, achieve astounding sums at auction. Our Indy 'toy' car pays homage to Korn's legacy with detailed dash, rubber tires, and hand-polished aluminum body.

In 1934, the international motor sport governing body specified a maximum weight for Grand Prix racing cars of 750 kg, excluding tyres and fuel. The Germans decided to reduce weight by removing the lead-based paint which denoted its cars' traditional white livery, exposing distinctive shining aluminium. Victory by one of these led to the nickname Silver Arrow. Their successors, which were built on the same chassis, continued to race successfully at the Indy 500 after the war.

# WEBER COSTELLO

The world in 1921, roaring and still thriving. Somehow the French were able to create simple yet utterly scintillating globes and globe stands. The Weber Costello globes are displayed on ebonized wood stands or on an ebonized rosewood stand accented in nickel-plated brass. Colored gores are applied to the globe core by hand with authentic construction and detail.

Board games have been known since ancient history, with the oldest records being paintings in mastabas of the First and Third Dynasties of Egypt. In the 10th century, chess arrived in Europe and the board acquired its characteristic recognisable chequered pattern. Chessboards have been made from numerous materials over the years, such as ebony, ivory, marble, metal, glass, and plastic. They can also be found as decorative elements in plazas, gardens, and living rooms.

M. Ø 35 x 9 cm, 13.80 x 3.50"

## Strategy and fun

The game of Solitaire is reputed to have been invented by a nobleman confined in the Bastille prison during the early years of the French Revolution. The game is played with 36 marbles. The object is to eliminate all but one marble, which should ideally end up in the center of the game board. Solitaire Di Venezia... individually hand blown glass marbles, full of color, against a solid ebony board. Art in itself, functional and fun as solitaire.

# DETERMINE YOUR COURSE

---

Before the technological revolution, intrepid explorers depended on finely calibrated analogue instruments to measure time, assess weather, read maps, survey surroundings and identify direction. Capturing their spirit of adventure, Authentic Models' fully functioning compasses, visionary aids, time-pieces and weather measuring devices pay homage to the significance of these inventions. Our skillfully crafted pieces charm in their aesthetic beauty while allowing you to put your own skills to the test.

# MAGNIFIERS

Early age engineers loved to tinker with design, and make things look interesting and especially larger than life. It always pays to have a close look! That picture of grandmother in a group of 27 classmates, from 1919. Did she wear earrings? Our magnifiers allows detailed examination of maps, coins, and other wonders. A tool for the curious of mind.

# TELESCOPES

An intriguing and classic explorer's and navigator's tool. After dinner, having enjoyed a chilled Chardonnay, nothing is more relaxing than observing birds and wildlife or neighbours with a tripod mounted telescope. Pull out all the way and focus by adjusting the smallest eye-section. Feel like a sea captain scanning the horizon from a heaving aft-deck and enjoy the view!

**Binocular on Tripod / KA040**  
M. 170 x 75 x 75 cm, 67 x 29.5 x 29.5"

*Magnification 35x*

An intriguing and classic explorer's and navigator's tool. The telescope consists of a wood barrel holding an objective, a system of lenses. It is protected by brass collars and a decorative brass cap. To use, pull out the brass drawers. The smallest tube holds the eye objective. Judiciously push in the smallest end-tube to focus.

**Opera Binocular Silver 3" / KA033**  
M. 11,50 x 8 x 5 cm, 4 x 2.50 x 2"

**Opera Binocular Silver 4" / KA034**  
M. 16 x 12 x 5 cm, 4.50 x 4.25 x 2"

**Opera Binocular Brass 3" / KA033B**  
M. 11,50 x 8 x 5 cm, 4 x 2.50 x 2"

**Opera Binocular Brass 4" / KA034B**  
M. 16 x 12 x 5 cm, 4.50 x 4.25 x 2"

**Bronze Pocket Sextant / KA030**

**Sextant in Case / KA032**  
M. 15 x 15 x 8 cm, 6 x 6 x 3.25"

Made to store away as small as possible this is a marvel of hand tooled telescoping brass tubes. Pull out all the way and focus by adjusting the smallest eye-section. Feel like a sea captain scanning the horizon from a heaving aft-deck.

# COMPASSES

Early age engineers loved to tinker with design, and make things look interesting and especially larger than life. It always pays to have a close look! That picture of grandmother in a group of 27 classmates, from 1919. Did she wear earrings? Our magnifiers allows detailed examination of maps, coins, and other wonders. A tool for the curious of mind.

# TIME

The clock is one of the oldest human inventions, meeting the need to measure intervals of time shorter than the natural units: the day, the lunar month, and the year. In today's digital world where the elegant science of navigation is hidden from view, this intricately beautiful instrument is a perfect reminder of the human endeavour which paved the way.

La reproduction des couleurs dans ce catalogue ne doit être utilisée que pour vous guider dans le choix des couleurs des articles. Nos produits sont destinés uniquement à un usage intérieur.

#### **DES PRODUITS UNIQUES**

Certains produits de la collection Authentic Models sont fabriqués à la main à partir de matériaux naturels. Cela signifie que les produits sont rarement totalement identiques et peuvent présenter des différences de couleur, de taille ou de finition. Nous estimons que cet aspect ajoute de la valeur et de la qualité à ces produits. De petites irrégularités dans les formes, surfaces et finitions sont caractéristiques du travail artisanal et ne doivent pas être considérées comme des défauts.

#### **UNIKATE**

Einige Produkte in der Kollektion von Authentic Models werden aus natürlichen Materialien von Hand hergestellt. Das bedeutet, dass die Produkte nur selten vollständig identisch sind und sich eventuell in Bezug auf Farbe, Größe oder Oberflächengestaltung voneinander unterscheiden. Wir sind davon überzeugt, dass dies zum Wert und zur Qualität dieser Produkte beiträgt. Geringfügige Abweichungen in Bezug auf Formen, Oberflächen und Endbearbeitung sind Kennzeichen der Fertigung von Hand und sollten nicht als Mängel betrachtet werden.
