DESIGNS WITH A STORY

## HERITAGE

Our company was founded in 1968 in Amsterdam. Initially focused on making specific home decoration items, we gradually evolved into a high-end furniture and home decoration brand with a distinct European heritage.

For that reason, we are proud to celebrate our **56th anniversary** in 2024!  
A long-standing history in which a unique design style and excellent customer service have been the key to our worldwide success.

Throughout the past decades we always have been designing every piece in our collection with an inspiring story behind it, whilst clearly being characterized by style, leisure, and adventure.

Today, we remain true to this ethos by expressing an outspoken spirit through highly attractive furnishings and accessories for today's discerning customers.

We are proud to offer our Collections through a worldwide network of dedicated retail partners. Enriching any space from traditional opulence to modern minimalist all over the world.

As we are now entering our second half-century, we find ourselves embarking on our own fresh new journey of discovery, marked with the introduction of intriguing new designs that sparkle the mind.

## AUTHENTIC MODELS

The décor in our interior tells the stories of our lives.  
Reflecting the memories we cherish, the pursuits we enjoy, our family history and all the things that interest or matter to us.  
With some pieces chosen for their tangible connection, others purely for their aesthetic appeal.

At Authentic Models, we combine the two through elegantly handcrafted furniture, objects and ornaments which capture the essence of an era or interest via meaningful and surprising design.

Inspired by an adventurous spirit, our collections celebrate style, leisure, and adventure.  
Treading in the footsteps of history while also exploring beyond the beaten track.

We create original new designs with a daring contemporary twist, character and quality that complements every personal style, to fit in with both modern and traditional settings.

Finally, we would like to wish you a pleasant time exploring this Collection Book 2024.

## CRAFTMANSHIP

While design and materials create the potential for the beauty of a piece of furniture or accessory, craftsmanship determines the final result.

All our handcrafted products are made with attention to detail, which makes each and every piece unique. The craftsmen who work on our collection are professionals and understand their trade meticulously.

That's why we believe that in crafting there are no mistakes, just unique creations.

## BALLOONS

Our balloons combine color, decor and themes, all-in-one.  
They're fascinating today as they were a century ago.

Since 1783, balloons have traveled the skies.  
Just imagine viewing the earth from above, free as a bird and holding onto a balloon basket.

Iconic and inspiring, these balloons will really fit into any home.  
Get ready to release the ballast and float away.

## MOBILES

### MOBILE SOLAR SYSTEM

GL061

Gazing in the night sky we wonder about the size and scope of the universe. Within that magnitude our solar system seems infinite and overwhelming. It's easier to understand native creation myths, Newtonian and Galilean theories, and great historical discoveries when viewing the solar system on a smaller, more comprehensible human scale. Reduced to both scientific and decorative models of our planetary system, revolving around the sun and not the earth as early scientists believed.

M. 51 x 135 x 45 cm, 20.10 x 53.10 x 17.70"

**Planets from left to right:**  
**Neptune - Saturn - Mars - Earth - Sun - Mercury - Venus - Uranus - Pluto - Jupiter**

### GLOBE MOBILE

GL060

Five different globes from five centuries, symbolizing the advancement of cartography, the gradual pushing back of boundaries. Seemingly a magic object, many earth globes moving in perpetual circles. Different style globes in colors, hues and specifications make a fascinating and elegant object. Sure to arouse interest in planets and their clockwork movements in a curious child's mind, it may at the same time bring about sleep in a drowsy mind, watching its hypnotic pattern.

## SPITFIRE

AP456

The legendary Spitfire fighter was introduced in 1936 as a short-range, high-performance and single-seat aircraft. Beloved by pilots it still has an iconic status. Our model has unbelievable details like retractable main wheels, sliding cockpit window and functioning tail rudder. Shipped with an aluminum stand with plaque.

## WWII MUSTANG

AP459

The P-51 Mustang was the first US built fighter in action after the fall of France, successfully engaging every air-born opponent. Fast, powerful, and manoeuvrable, with 75-gallon tanks under each wing, its ability to fly 6-hour missions was unheard of at the time.

M. 76 x 67 x 47 cm, 29.9 x 26.4 x 18.5"

### FORD TRIMOTOR

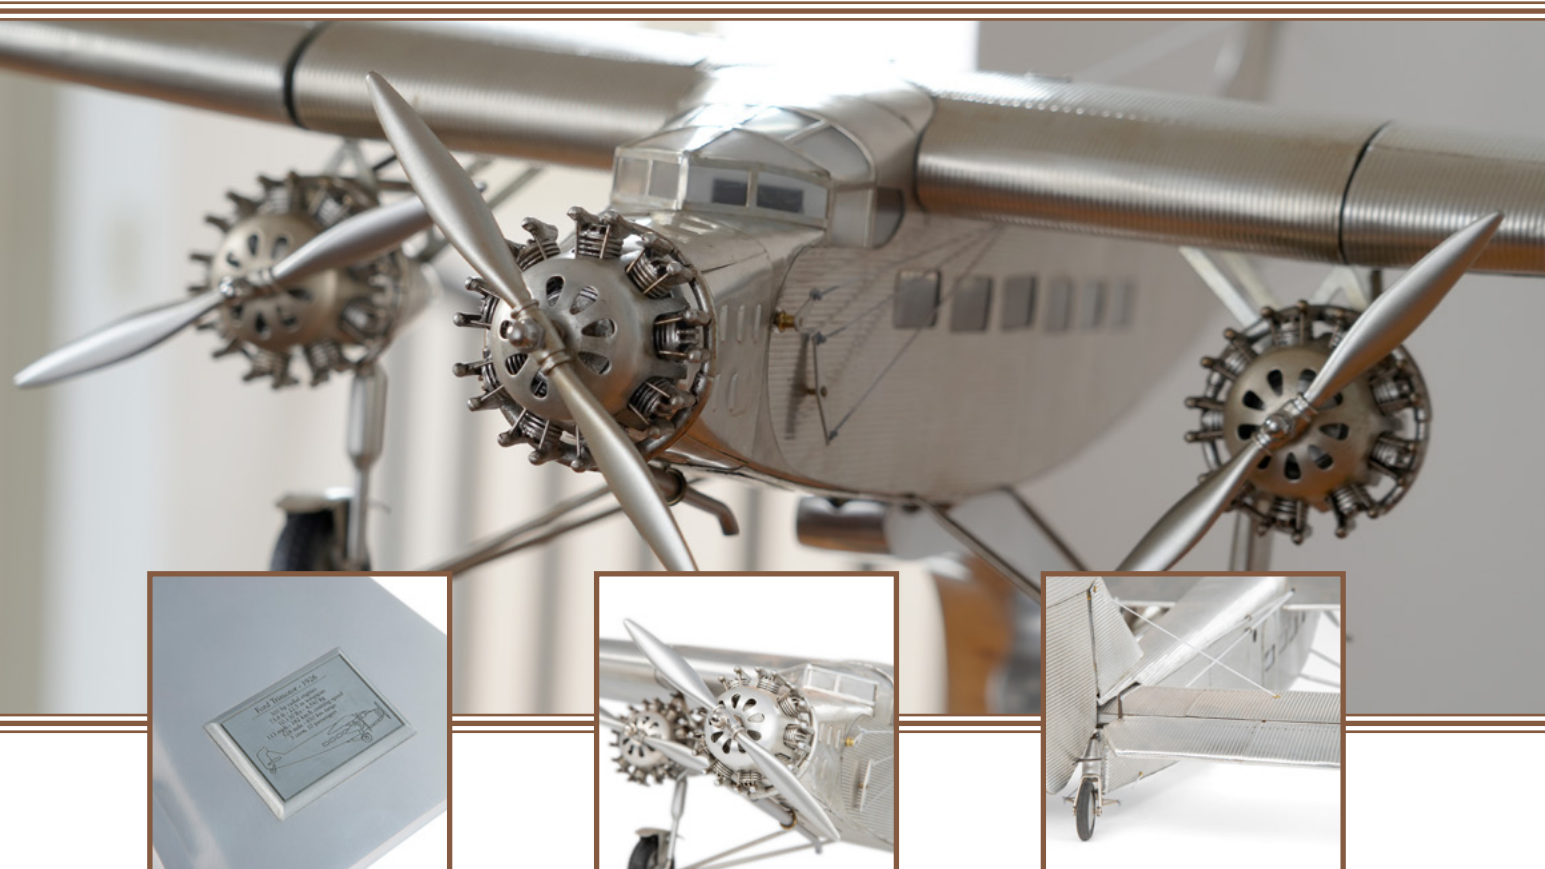

AP452

Between 1926 and 1933 only 199 Trimotors were built in Ford's own factory. Corrugated metal on great thick monoplane wings was a German development, used in Junker JU-52 planes that were flying the Berlin-Rome-London route. Trimotors were flown by airlines, oil companies and wealthy individuals. The Ford Trimotor and Junkers JU-52 were pioneering airplanes that led to generations of Douglas and Boeing fleets of aircraft, soon to criss-cross the world.

## DAKOTA DC-3

AP455

The DC3 has earned the epithet “Workhorse of the Skies”. Thousands were produced from the end of WWII into the 1950s by the Douglas Aircraft works. Military, civilian, government, private, you name it. Utterly reliable. Even now it’s possible to find them flying from remote airports, landing on the tightest strips. Legendary and nostalgic. Aluminum, riveted propellers, noisy, but also safe and familiar.

M. 101 x 67 x 40 cm, 39.8 x 26.4 x 15.7"

## CONNIE

AP458

Sleek and powerful, Connie set a number of speed and distance records, despite experiencing frequent motor problems which led to them being jokingly called the most reliable three engine aircraft. The plane’s elegant appearance was the result of no two bulkheads being the same shape. A design which has long since been superseded by cheaper, more pressure-change-resistant tube constructions.

## PLANE MODELS

Most definitely it's the size. It's BIG. Built with an interesting array of materials. Lightweight frame stretched with fabric. Down to the smallest detail a replica of the original, which was actually only 5.7m long (less than 19 ft.) to begin with. Built by the thousands during the Great War, in many colors and configurations. The Sopwith was the mainstay fighter-plane of the British and USA air forces in the early 1900s. It ruled the skies for a number of years. Our model fits large spaces as well as large personalities (of which there is no shortage in this world!). Pair it with propellers, old maps, a pilot's desk.

In the quiet recesses of a skilled artisan's workshop, a miniature zeppelin took shape—a labor of love and precision.

Handcrafted with delicate care, the tiny airship hung suspended, a testament to a bygone era's elegance.

A transparent zeppelin, a daring choice in home decor, hangs elegantly, blending innovation and style.

Its skeletal frame, crafted with precision, captures the essence of modern aesthetics.

Sunlight dances through its transparent envelope, casting a warm glow that transforms spaces into avant-garde sanctuaries.

## PROPELLERS

Take a moment to appreciate the exquisite craftsmanship evident in this wooden marvel, a testament to an era when adventurous aviators soared through the skies, navigating uncharted landscapes with bold determination. Gently run your fingers over the wood's surface, which has acquired a subtle, weathered charm over the years, resembling the warm hue of honey. Each touch tells a story of countless journeys and daring escapades. As you examine it closely, your eyes may be drawn to the series of meticulously punched serial numbers encircling the hub, a tangible connection to its storied history.

## PROPELLERS

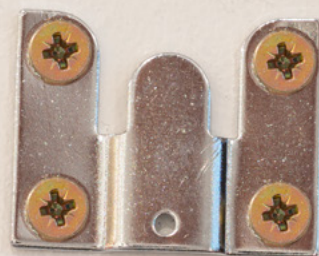

Now, imagine this remarkable piece adorning various spaces – perhaps hanging on the wall of a cozy bar, where patrons can sip their drinks while reminiscing about past adventures. Picture it as the focal point of a young aviation enthusiast's room, inspiring dreams of flight and discovery. Visualize it nestled in a quiet corner of your living room, adding a touch of vintage charm to your decor. Or envision it as a captivating piece of history gracing the walls of a restaurant, sparking conversations and inviting diners to embark on a culinary journey through time. This wood creation is not just an object; it's a symbol of daring spirit, timeless craftsmanship, and a source of fascination for all who have the privilege of encountering it.

You can't see the mechanic from your open cockpit. You yell..."Contact" and the propeller jumps to life, the plane starts to shudder. The mechanic pulls away the wheel blocks and escapes. The noise is incredible, a nine-cylinder Hispano-Suiza...spewing clouds of vaporized castor-oil. Complete cacophony. The propeller is by now an invisible whirr. Out of the way, this is hands-on flight at its finest. Ready for take-off?

## CROSSING THE SEAS

Exploration, embarking on new lives, enjoying leisure trips and sporting endeavour... are just some of the many reasons people have taken to the water over the centuries. For every past-time and purpose, numerous different vessels have been designed to ride the waves, sail the waterways and defeat the competition. Authentic Models celebrates adventure, luxurious travel and challenge of waterborne pursuits through accurate, high-quality models of sailing ships, steamers, runabouts and decorative oars. Staying true to history, while also offering original decorative twists.

## OARS

For thousands of years vessels were powered either by sails, or by the mechanical work of rowers, or by paddlers. Some vessels were propelled by both oars and sail, depending on the speed and direction of the wind. Many places have long histories of using "trophy" oars on display in club houses around the world. Just like the classic oars, ours are handmade of high-quality wood.

The Aquarama has become a nautical legend. Its evocative name and shape conjures images from another time when these boats roared across the Lago di Como and skimmed the Mediterranean waves of St. Tropez. The Jaguar XK120 ruled the road; Doris Day and Cary Grant were Oscar nominated. It was a time of peace, and optimism was unbridled.

## USS CONSTELLATION

AS159

USS Constellation was a nominally rated 38-gun wooden-hulled, three-masted frigate of the United States Navy. She was built under the direction of David Stodder at The Joseph and Samuel Sterett shipyard on Harris Creek in Baltimore's Fell's Point maritime community, and she was launched on 7 September 1797. She was one of the original six frigates whose construction the Naval Act of 1794 had authorized. The name "Constellation" was among ten names submitted to President George Washington by Secretary of War Timothy Pickering in March of 1795 for the frigates that were to be constructed.

## WHEELS IN MOTION

Motoring started to really find its feet in the 1930s when engineering and competitive spirit came together in the form of racing cars. While careering round a track was only for the very bravest of men, mere mortals could get a safer slice of the action by racing spindizzies – miniature tether cars modelled equal in size on racing cars which moved at nearly 150 miles per hour. Authentic Models salutes those heady early days of motorsport with wonderfully detailed models of the cars and spindizzies which so captured the hearts of their fans.

In the 1930s Spindizzies or Tether Cars were miniature racecars built by hobbyists which drove around banked wooden tracks at speeds approaching 150 miles per hour. Incredibly detailed and aerodynamic, these racers were beyond toys; they were pieces of art representative of the best pioneering technology of the era. Constructed using original blueprints, our Bantam Midget model resembles the original down to the smallest detail.

Technically skilled enthusiasts of the 1930s loved to race the legendary B.B. Korn cars around the club tracks. Called tether cars or spindizzies, they reached incredible speeds, and inspired thousands to improve and invent. The founder of the B.B. Korn Manufacturing Company, Barney Korn, produced several tether car models that now, as vintage antiques, achieve astounding sums at auction. Our Indy 'toy' car pays homage to Korn's legacy with detailed dash, rubber tires, and hand-polished aluminum body.

Its original makers were the famous Dooling Brothers, who manufactured around 1000 units at the time. They were offered to aficionados of the famous Dooling spin-dizzies, miniature motorized racecars that reached dizzying speeds. They were closely modeled on the famous Mercedes Silver Arrows of the early 1930s. Originals are now rare and highly prized by collectors. Molded with the same exacting detail as its original, our 12.2" Indy racer is hand-cast in airplane aluminum. Hand polished and buffed to a high shine, it features a detailed dashboard, faux leather seat, steering wheel and brake.

In 1934, the international motor sport governing body specified a maximum weight for Grand Prix racing cars of 750 kg, excluding tyres and fuel. The Germans decided to reduce weight by removing the lead-based paint which denoted its cars' traditional white livery, exposing distinctive shining aluminium. Victory by one of these lead to the nickname Silver Arrow. Their successors, which were built on the same chassis, continued to race successfully at the Indy 500 after the war.

## EXPLORING THE FRONTIER

A beautifully handcrafted globe is both a work of art and a historical reference point. With different versions through the centuries reflecting new knowledge gained by explorers and new territories claimed by countries. Authentic Models is a world leader in antique globe reproduction, still practicing the traditional complex gravure printing technique developed to display fine details. Our collection represents five centuries of globe development by some of the greatest names in cartography, tastefully mounted on sympathetically designed stands to bring old world charm to even the most modern settings.

AM033

M. 11 x 13 x 39 cm, 4.3 x 5.1 x 15.4"

The Hudson Train stands as a testament to the golden age of steam locomotives. With its sleek, aerodynamic design, this powerful engine exemplifies both form and function. The J-3a Hudson, part of the streamlined era, was a symbol of innovation and speed, embodying the romance of rail travel. Its iconic appearance and high-performance capabilities made it a favorite among both engineers and enthusiasts during its heyday. Today, this locomotive remains a cherished piece of rail history, evoking a sense of nostalgia for the era when steam ruled the tracks.

Functioning skyhook replicas of the 18th and 19th C. classic accessories. Expertly hand-painted and finished to look like the real antique ones. Molded on bronze cast molds in two halves when welded. Just give them a swing and enjoy the movement!

Board games have been known since ancient history, with the oldest records being paintings in mastabas of the First and Third Dynasties of Egypt. In the 10th century, chess arrived in Europe and the board acquired its characteristic recognisable chequered pattern. Chessboards have been made from numerous materials over the years, such as ebony, ivory, marble, metal, glass, and plastic.

They can also be found as decorative elements in plazas, gardens, and living rooms.

The game of Solitaire is reputed to have been invented by a nobleman confined in the Bastille prison during the early years of the French Revolution. The game is played with 36 marbles. The object is to eliminate all but one marble, which should ideally end up in the center of the game board. Solitaire Di Venezia...individually hand blown glass marbles, full of color, against a solid ebony board. Art in itself, functional and fun as solitaire.

Decorative designs that differed from the classic shaker shape were in fashion, to make them less easily recognized by the police. All this was during the 1920s when the Congress voted in the Prohibition and the US went 'dry'. Illegal bars called speakeasies came in many varieties. All shakers are made of heavily silver-plated brass.

## DETERMINE YOUR COURSE

Before the technological revolution, intrepid explorers depended on finely calibrated analogue instruments to measure time, assess weather, read maps, survey surroundings and identify direction. Capturing their spirit of adventure, Authentic Models' fully functioning compasses, visionary aids, time-pieces and weather measuring devices pay homage to the significance of these inventions. Our skillfully crafted pieces charm in their aesthetic beauty while allowing you to put your own skills to the test.

An intriguing and classic explorer's and navigator's tool. After dinner, having enjoyed a chilled Chardonnay, nothing is more relaxing than observing birds and wildlife or neighbors with a tripod mounted telescope. Pull out all the way and focus by adjusting the smallest eye-section. Feel like a sea captain scanning the horizon from a heaving aft-deck and enjoy the view!

Through centuries of technological innovation, we've charted the whole world. But early navigators and explorers setting out didn't necessarily know where they were headed. Guided only by a simple compass, the stars of the night sky, early octants and astrolabes. Discover early navigation, enjoy an unbelievable collection of compasses from various eras.

The colour reproduction in this catalogue should only be used as a rough guide for selecting item colours. Our products are for indoor use only.

**UNIQUE PRODUCTS**

Most products in the Authentic Models collection are handcrafted from natural materials. This means products are rarely completely identical and may show variance in colour, size or finish. We believe this aspect adds to the value and quality of these products. Small irregularities in shapes, surfaces and finishes are hallmarks of hand-craftsmanship and should not be considered defects.

Il est important de garder à l'esprit que les couleurs illustrées dans ce catalogue peuvent ne pas être des représentations exactes des couleurs réelles des articles. La reproduction des couleurs dans ce catalogue ne doit être utilisée que pour vous guider dans le choix des couleurs des articles. Nos produits sont destinés uniquement à un usage intérieur.

**DES PRODUITS UNIQUES**

Certains produits de la collection Authentic Models sont fabriqués à la main à partir de matériaux naturels. Cela signifie que les produits sont rarement totalement identiques et peuvent présenter des différences de couleur, de taille ou de finition. Nous estimons que cet aspect ajoute de la valeur et de la qualité à ces produits. De petites irrégularités dans les formes, surfaces et finitions sont caractéristiques du travail artisanal et ne doivent pas être considérées comme des défauts.

**HAFTUNGSAUSSCHLUSS**

Authentic Models BV bemüht sich nach Kräften, die Richtigkeit und Qualität der in diesem Katalog enthaltenen Informationen sicherzustellen. Authentic Models kann allerdings die Richtigkeit oder Vollständigkeit der vorgelegten Informationen nicht garantieren und übernimmt diesbezüglich keine gesetzliche Haftung oder Verantwortung. Es ist wichtig zu berücksichtigen, dass die in diesem Katalog gezeigten Farben die tatsächlichen Farben der Artikel eventuell nicht genau wiedergeben. Die Farbwiedergabe in diesem Katalog sollte lediglich als grober Anhaltspunkt bei der Auswahl farbiger Artikel genutzt werden. Unsere Produkte sind nur für den Innenbereich bestimmt.

**UNIKATE**

Einige Produkte in der Kollektion von Authentic Models werden aus natürlichen Materialien von Hand hergestellt. Das bedeutet, dass die Produkte nur selten vollständig identisch sind und sich eventuell in Bezug auf Farbe, Größe oder Oberflächengestaltung voneinander unterscheiden. Wir sind davon überzeugt, dass dies zum Wert und zur Qualität dieser Produkte beiträgt. Geringfügige Abweichungen in Bezug auf Formen, Oberflächen und Endbearbeitung sind Kennzeichen der Fertigung von Hand und sollten nicht als Mängel betrachtet werden.
